On November 8, 2022, Siesta Shores WCID PWS: 2530004 will be changing the disinfectant that we are temporarily using from Free Chlorine to Chloramines. This change is needed as we have completed our semi-annual burnout of the distribution system. During this process you may notice a change in taste and odors. Water continues to be safe for human consumption.

If you have any questions, please call the office at above referenced number.

Thank you for your attention.
